

7 Softcam CNC Lathes – 7 Flexcam Automatic Lathes

Application Guide – Lathes

Softcam		Flexcam
... Up to 6 Simultaneous Movements of Machine Axes		Fastest Cycle Times
Softcam V6-PM: 6 Material Feed Tool Axis 1 Tool Axis 2 Tool Axis 3 Mobile Counter Collet Straightener	Softcam V6-SR1A: 6 Material Feed Tool Axis 1 Tool Axis 2 Tool Axis 3 Mobile Counter Collet ³ 4 Station Turret ³ Straightener ³ Same Axis	All Flexcam Models Machine construction optimised for fastest cycle times and highest production rates Flexible camshaft speed programmable by segment
Productivity Increase After Retrofit – Up To		
Softcam V2: + 10% Softcam V2-PM: + 20% Softcam V2-PMF: + 50% Softcam V4/V5: + 20% Softcam V6: + 30% Softcam V6-PM: + 30% Softcam V6-SR1A: + 20%		
Productivity Guide – Softcam → Request Your Copy (45 Pages)		Customer Machine Trade-In
Part 1 – Overview for Management Improve competitiveness Reduce part costs Reshore production Overcome shortage of skilled operators Knowledge of CNC languages not required		Escomatic® Base Model Optional trade-in of Escomatic® D2/D4/D5/D6 from customer, or base machine provided by Ventura Mechanics
Part 2 – Overview for Escomatic® Machine Operators Easy-to use Softcam CNC control software 40+ pictograms and conversational programming Rapid machine set-ups (under 1 hour, 2-4 hours) Production optimisation and monitoring		

14 Models

7 Softcam CNC Lathes with Virtual Cams

7 Flexcam Automatic Lathes with Mechanical Cams

Retrofitted on Escomatic® D2/D4/D5/D6 Base Models

Ventura Mechanics – Expertise and Customers

12'000 Escomatic® Tool-Heads

500 Ventura® High Speed Tool-Heads

200 Retrofitted Escomatic® Lathes

900 Precision Turning Machines

1983 Founding Year

400 Customers

40 Export Countries

80% Export Sales

Customer Industries		Examples of Customer Products
Automotive Medical Electronics Appliances Watchmaking	Aerospace Dental Connectors Mechanics Security Hardware	Axes for micro-motors and household appliances Special screws, pins and connector rods Pins for semiconductor connectors Axes for medical instruments and dental drills Spring bars for watch bracelets Fasteners and pins and for locking mechanisms

V2-PMF

Overview

Softcam CNC Lathes	Flexcam Automatic Lathes	Part Diameter 0.15 - 50 mm Part Length - 110 mm	Part Diameter 0.50 - 6.35 mm Part Length - 124 mm
Virtual cams for more production flexibility and higher productivity	Mechanical cams for large production series and lower cost per part	Softcam and Flexcam Model V2 Retrofit of Escomatic® D2 Fixed Counter Collet Model V2-PM Retrofit of Escomatic® D2-PM Mobile Counter Collet Model V2-PMF Retrofit of Escomatic® D2-PMF Milling Attachment Mobile Counter Collet Model V4/V5 Retrofit of Escomatic® D4/D5 3 Station Drilling Turret Mobile Counter Collet	Softcam and Flexcam Model V6 Retrofit of Escomatic® D6 3 Independent Turning Operations Fixed Counter Collet Model V6-PM Retrofit of Escomatic® D6-PM 3 Independent Turning Operations Mobile Counter Collet Model V6-SR1A Retrofit of Escomatic® D6-SR 3 Independent Turning Operations 4 Station Turret for Complex Parts Front, Back and Transverse Operations Mobile Counter Collet
Innovative Technologies for Industry 4.0 Performance			
All Models Complete mechanical, electrical, electronic, hydraulic and pneumatic retrofit of Escomatic® D2/D4/D5/D6 base model For higher machining precision, tighter tolerances, improved part surface quality and lower maintenance costs
